

Our Ref: NW/11/01/O-014032
Date: 11th January 2022

Dear Sir/Madam

**4TH GENERATION TERM CONTRACT FOR MANAGEMENT AND MAINTENANCE OF THE
SCOTTISH TRUNK ROAD NETWORK – NORTH WEST UNIT
A85 PLANNED MAINTENANCE - CARRIAGEWAY RESURFACING**

BEAR Scotland, on behalf of Transport Scotland, are planning to carry out essential carriageway resurfacing works on the A85 trunk road, Arrivain. Please find enclosed location plan for geographical clarity.

Works are programmed for construction from Monday 17th January to Friday 28th January 2022 between 7am and 7pm each day, for a total of 10 days. No works are planned for Saturday or Sunday.

Due to the nature of the works, a 10mph convoy traffic management system will be in place to ensure the safety of both our workforce and travelling members of the public. During the works there may be restricted access for periods of time at local access points to ensure the works can be carried out safely. Access for emergency services will be maintained at all times throughout the works.

Out with working hours, traffic management will be removed however, a temporary 30mph speed limit will remain in place to protect road users as they will be travelling over a temporary road surface.

The safety of maintenance workers remains a top priority during these projects and strict physical distancing protocols, in line with Scottish Government guidance, will be in place to ensure all on-site personnel remain safe throughout the duration of the project. Robust risk assessments have been completed to ensure all staff are kept safe.

If you have any queries related to the above, please do not hesitate to contact Daniel Faulkner, via email at NWConsultation@bearsotland.co.uk.

Yours Faithfully,

Ross Newlands
Assistant Planned Maintenance Manager
For and on behalf of BEAR Scotland
