Date: 01/02/2018

Dear Sir/Madam

**4TH GENERATION TERM CONTRACT FOR MANAGEMENT AND MAINTENANCE OF
THE SCOTTISH TRUNK ROAD NETWORK – NORTH WEST UNIT
A85 INVERARAY JUNCTION – RESURFACING**

BEAR Scotland, on behalf of Transport Scotland, will be carrying out essential resurfacing works on a section of the A85 trunk road at the A819 Inveraray junction. Please find enclosed a location plan which details the extent of the works.

The resurfacing works are programmed for construction between Sunday 11th March and Friday 16th March 2018. The works will be undertaken between 21:00 and 07:00 Sunday night to Friday morning, with no works planned for the weekend.

Due to the restricted road width there is a need to close the carriageway to ensure the safety of the workforce and the travelling public. To minimise disruption during the closure there will be amnesty periods at 10pm, 1am and 4am each night where traffic will be escorted under convoy through the site.

Traffic travelling from Inveraray in the direction of Tyndrum and Oban via the A819/A85 may experience some disruption on the 11th of March. However, this should be intermittent in nature.

In addition to the set amnesty periods there will be a diversion route in place for traffic heading between Tyndrum and Oban via the A82/A828 to Connel. This represents an additional journey time of 50 minutes for those opting to travel outside of the specified amnesty periods.

Some minor delays are unfortunately inevitable but efforts will be made to keep these to a minimum. BEAR Scotland and Transport Scotland wish to thank the local community and the travelling public in advance for their patience during these essential works.

Should you require further information, or wish to discuss these proposals, please do not hesitate to contact Stuart Earl - Graduate Design Engineer - by e-mail searl@bearsotland.co.uk or by telephone on 03300 080 506.

Yours Faithfully

Jamie Finlayson
Assistant Roads Manager
For and on behalf of BEAR Scotland Ltd
